Superpowers

...With Powers and Abilities Far Beyond Those of Ordinary Men...

What do *Alex Ross & Jim Krueger* do now that they've wrapped up ***Justice***, the best All-Star book DC has published thus far (even though it didn't carry the All-Star title or branding)? Well, it appears that this creative duo has much more to say about the subject of ***Superpowers***...

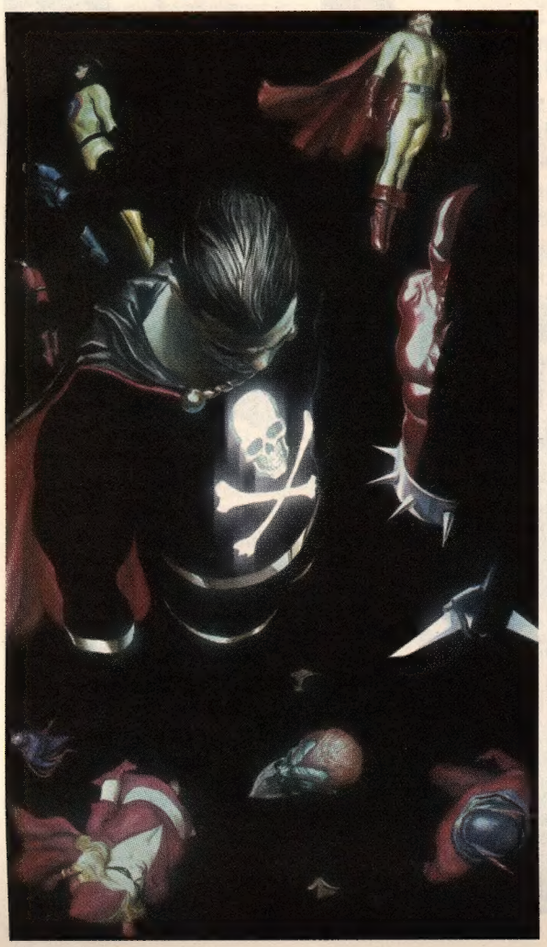
Their next project, which will debut from Dynamite Entertainment later this year, focuses on a number of Golden Age characters, offering a new look at classic heroes like The Black Terror, the Green Lama, the original Daredevil (now known as 'Devil), Pyroman, the Owl, and several other characters who have fallen into the public domain.

How did ***Superpowers*** come to be? "It's been in the works for about three years at this point, and grew out of a treatment I had put together," Dynamite publisher *Nick Barrucci* said. "We finalized the framework internally and always wanted to have Alex help take it to the next level as only he can.. and did! It worked out that both Alex and *Jim Krueger* were coming off their Justice series; we all got together and ***Superpowers*** was truly born."

"Nick wanted to do a project of epic proportions with the long-absent heroes from the '40s," Ross added. "We were only able to begin in earnest this year, when I could focus could more fully on this project. "***Superpowers*** is a first volley of a new superhero universe, and we hope it will be followed up with further chapters and series, potentially."

How did Ross and Krueger decide which characters they'd include in the series? "Going through the list of what we were aware of was available, I knew Black Terror, the Golden Age Daredevil (now 'Devil), and Green Lama were key figures that Dynamite wanted to use, and I pushed to expand that list to include the Flame, Samson, and many others," Ross said. "As Jim and I have done many times before, I'm contributing plot ideas, designs, and general creative direction for this project. Jim's writing and plotting, as he has always done with me. It's an interesting twist for us because it originated as another man's dream."

Since Ross is famous for his eye-catching ultrarealistic artwork, readers will be eager to see his visual take on the characters spotlighted in ***Superpowers***—and while he won't be illustrating the series *per se*, he will have a few treats in store for his fans.



"I've done some paintings that will appear in our first issue, as well as the cover—and, in the future... we'll see!" Ross said.

Artist *Stephen Sadowski* is the man charged with one of the most and least enviable jobs in comics: he's working with Alex Ross (most enviable), but he's illustrating a project with which Ross's name is attached, which means that a lot of people are going to be measuring your work against Ross's cover art and character designs (least enviable). Any nervousness with that?

"Oh yeah!" Sadowski said. "To make things *worse* for me, Alex will have pages *inside* the book *next* to mine! *No pressure at all*! All I can do is try my best and hope it stands on its own merits. If I were to start thinking about myself being compared to Alex, I would probably freeze up. Luckily it's a very fun project, and I've found myself sufficiently 'lost' in the art to be distracted from those thoughts!"

How did Sadowski became involved with ***Superpowers?*** "I was simply asked by *Nick Barrucci*. I had a window of availability before ***Avengers/Invaders*** began, and I thought it would be a fun project to do," Sadowski said.

Is he trying to evoke any of Ross's visual style with his work, or he approaching it as he would any other project? "Well, I've always thought Alex and I share a similar 'sensibility' in our art," Sadowski said. "We are both huge fans of the more realistic approach to superheroes. I've been working off of his ***Superpowers*** character sheets,so there are some instances where I look to see how he approached things—but mostly I just go with what I feel works best."

Is Sadowski influenced by Golden Age visual storytelling and stylistics in his approach to this series, or his giving the book a more contemporary feel? "I've been called 'old school' at times , but I am *most* influenced by *Neal Adams, George Pérez*, and others. I try to bring as much of a 'new' flavor as I can. Because of the characters and time frame involved in the story, I have tried to bring an almost reverential feel to the characters. Sure some of them have some pretty crazy outfits, but i am treating them with complete respect and seriousness they deserve."

Is this a painted book, or will it be done in a more traditional colored line-art method? "We will be digitally coloring the book direct from my pencils, similar to the ***Red Sonja Annual*** I did for Dynamite, which I thought looked *beautiful*," Sadowski said.

Sadowski is working with artist *Doug Klauba*, who "is handling the framing 'bookends' to the issue, our present-day interpretation... a sort of a quick and dirty army where the bodies of dead soldiers are recycled for an additional, later purpose."

aspects of the story. Some of the pages are collaborations with both our art on the same page. His work is just beautiful; I can't wait to see how its all put together," Sadowski said.

For readers unfamiliar with these heroes from bygone years, *Alex Ross* offered a few words about some of the most prominent. "The Black Terror... is, despite appearances, not simply a skull-emblazoned kill-em-all type character," Ross said. "He is, in fact, a sort of, 'pirate superman,' a black-clad Captain America or Superman—a variation on those themes. He is not simply, by motivation or behavior, the Batman archetype.

"The Green Lama holds the classic appearance of knowledge embodied in a super hero, whether by magical or religious means, and as a lama hews to a religious base, an eastern philosophy serves as both the drive and the empowerment of this character. He also fills in all the various mystical roles of characters like your Dr. Stranges, Dr. Fates, Spectres, etc.

"In the case of the 'Devil, he embodies, frankly one of the coolest, slickest 'looks' in comics history and one of the most dramatic reasons to create such a series as ***Superpowers*** is to get a character like this back into the thick of publishing. His return to comics is important to me, as one of the most dominant pieces of graphic design—something I think ultimately is the forebear of so many modern costume designs.

"Samson is a character I have always thought of as being your primal kind of Thor-Superman-Hercules archetype... I have always imagined doing something with a character archetype fitting that role, so, picking up this guy from the 40's and doing the type of things we are doing with him now is great for me.

"The Crusaders are based upon the American Crusader—another great Superman/Captain America type character from the 40's, who could do all those fantastic things, flight , superpower, etc. In our modern interpretation of how time has gone on in the series, there is a certain amount of reproduction of both the bodies and the abilities of some of these classic superpowers that are put in play for our government and army as an elite force, almost like an stealth squadron of supermen.

"The F-Troop are taken from the 1940's long-running ***Frankenstein*** comic, and we've applied to him the more serious

What sort of a schedule will Dynamite be able to maintain on ***Superpowers?*** "We brought in two fantastic artists on issue #0 to handle both present and past aspects of the story, which helped us out there," Barrucci said. "It's a model we may end up using on the six-issue series and any subsequent series. We've learned a thing or two about keeping a schedule—and will probably learn more as we keep moving forward—and this one is certainly one of our biggest books (if not *the biggest* to date), so we don't want anything to go wrong that can be controlled from our end."

Why launch such a high-profile series with a $1 zero issue? "Why not?" Barrucci replied. "It's a great story we want as many people to read as possible and it seems like $1 is a good introduction considering you're getting twenty-eight pages of story and art – including select pages painted by Alex himself – as well as character bios and sketches of our stars by *Alex Ross* and Dynamite. Add to that the connect covers, *Michael Turner* retailer incentives, and Alex of course, and we think we have a winning combination!"

Superpowers #0, a $1 comic from Dynamite Entertainment, is scheduled for late December release; the first issue follows in January.

•Marvel has sold out of multiple printings of *J. Michael Straczynski & Olivier Coipel's* ***Thor #s 1-3***—but rather than going back to press with more copies of these three sold-out books, Marvel is collecting them in ***Thor: Rebirth,*** which features a new cover by Coipel. Look for it in early November.

•Victory delayed is *not* Victory denied—at least not at Image! The *Jack Kirby* compendium reprinting the entirity of his ***Captain Victory and the Galactic Rangers*** series, originally slated for November release, has been pushed back to mid-2008 in order to allow Image more time to complete the restoration of the book. "The last thing we

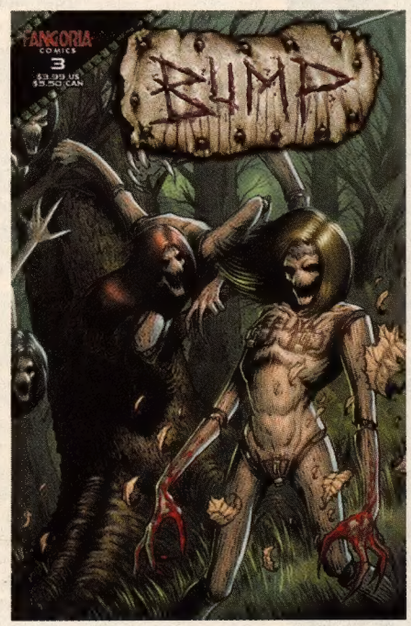
AND THE GALACTIC RANGERS
FORCES FROM THE STAR WORLDS CLASH ON EARTH!

want to do is release an inferior version of this material," Executive Director of Image Comics *Eric Stephenson* said. "The more involved we've gotten in the restoration process, the more obvious it has become that the files and art we're working simply aren't up to par with those used for ***Silver Star***. Faced with the decision to either complete a sub-standard edition or do this with the care and fine attention to detail it deserves, we've decided to push the book's release back.

"With ***Silver Star,*** *John Morrow* at TwoMorrows supplied with near-perfect scans of the original pages. Unfortunately, it's been much harder to track down everything we need for ***Captain Victory***. Nothing beats the quality of scans of Jack's untouched work. Anyone with access to those pages can help us ensure this will be the best hardcover possible." Readers who have access to original Captain Victory pages, or scans of the originals, are encouraged to contact Image at **info@imagecomics.com** to assist them in preparing this 376-page collection of Kirby's last major work.

•Top Cow has pulled ***Aphrodite IX: Pilot Season*** from their fall schedule; ***Pilot Season*** will now consist of five one-shot pilot issues—***Ripclaw, Cyblade, Velocity, The Necromancer,*** and ***The Angelus.*** "The decision to cancel ***Aphrodite IX: Pilot Season*** was a tough one," *Matt Hawkins,* President of Top Cow, said. "The issue wasn't coming together in a way that would work for ***Pilot Season***. We didn't want to risk delaying the voting process for ***Pilot Season*** or releasing a pilot issue we weren't completely happy with, so the responsible thing to do was to remove it from the promotion. Fans *haven't* seen the last of ***Aphrodite IX,*** though!"

•Fangoria Comics, who recently entered the field with such series as ***Bump*** and ***Beneath the Valley of the Rage,*** has suddenly *left* the field after only a couple of months of publishing. Former Fangoria editor *Scott Licina* said that "it became more and more apparent with the recent closings of several divisions and the lay-offs that accompanied them, other announced projects like ***Vampirella*** that failed to materialize, and the fact that we received virtually no marketing or promotional support in any way—not even in the company's own ***Fangoria*** or ***Starlog*** magazines—that there may be trouble ahead. But I couldn't have imagined... that it would be only two months and four days after our first book hit the shelves that we would be closed down." Licina indicated that the company's books, which were creator-owned, *will* continue, and he promised more details in the very near future on where and when readers will see those projects.



•***Green Lantern #23*** and ***Tales of the Sinestro Corps: Parallax #1*** are the latest "Sinestro Corps War" tie-ins to sell out and go back to press; both will feature recolored versions of their original covers, and both are slated to be in comic shops next week.

•And speaking of "Sinestro Corps War," DC has clarified the contents of ***Green Lantern Corps #18.*** The book was initially described as featuring a "Sinestro Corps War" epilogue, but it will actually feature "Sinestro Corps War Part Ten" by *Peter Tomasi, Jamal Igle, Patrick Gleason, Jerry Ordway, & Prentis Rollins.*

•Bad trick, no treat... ***Trick 'R Treat,*** the movie prequel miniseries from WildStorm, has been taken off the fall schedule because the film has been delayed. Look for it in 2008.

•Apparently everyone loves a wedding! ***The Green Arrow/Black Canary Wedding Special*** has sold out of its first printing and is going back to press for a second run, complete with a *Ryan Sook* cover featuring art originally presented in house ads for the book. The second printing should be in stores this week—and while you're at it, pick up ***Green Arrow/Black Canary #1*** by *Judd Winick & Cliff Chiang,* which should be in stores already (if it hasn't sold out since its release last week!).

LEAGUE OF EXTRAORDINARY GENTLEMEN: THE BLACK DOSSIER HC 11/14 Vertigo/DC JUL060241 $29.99

Alan Moore & Kevin O'Neill present an all-new installment of the literary montage adventure series. This chapter is set in England in the mid-1950s, where the powers that be have instituted some changes. The League of Extraordinary Gentlemen have been disbanded and disavowed, and the country is under the control of an iron-fisted regime. Now, after many years, the still youthful Mina Murray and a rejuvenated Allan Quatermain return in search of some answers - answers that can only be found in a book buried deep in the vaults of their old headquarters - a book that holds the key to the hidden history of the League throughout the ages: The Black Dossier.
